Solutions

Our Philosophy is Continuous Improvement & Growth with Our Customer's Business

Custom Goods prides itself in being small enough to “team think” solutions and big enough to introduce and successfully implement innovative programs. The ability to react to marketplace response and fine tune programs in progress assures that logistic solutions retain viability. We invite clients and their customers to present logistic challenges for analysis and feasibility...if it makes sense, CG will make it happen. Innovative programs currently in place:

-  Hawaii & Alaska Consolidated Express Shipments
-  Tech Center - Light Assembly & Remanufacture Programs
-  National Dealer Returns & Processing Programs
-  Ontario Auto Prep Facility
-  FTZ - Weekly Entry Programs
-  CG “QB Services” – Oversight & Loading Dock Management

CG continues to listen, plan & implement successful one-off logistic solutions
